## Questions

DVBIA

**Q: reports that guests/people visiting the building were involved in criminal activity. Is there any recourse for people involved who don't live there?**

*Yes, visitors involved in activity that is detrimental to the program are either temporarily or permanently barred. Often a reason that individuals come to the site is because they are homeless and have nowhere to go. MPA actively works with BC Housing to ensure homeless individuals are put on the supportive housing registry and assisted with shelter or housing, however they are asked to leave the property if they are not complying with rules. Police may be called if the individuals refuse to leave.*
